# ABOUT

---

At River Lodge Outfitters, we specialize in offering exclusive, luxury hunting retreats for those who seek more than just a hunt. Our mission is to build relationships, make memories, and enjoying God's creation together. We don't just offer hunting—we craft extraordinary, all-encompassing experiences designed to exceed expectations.

Founded by the Brown family, River Lodge Outfitters is built on a deep-rooted passion for hunting, hospitality, and conservation. For over 80 years, the Browns have hunted the very land where the lodge now stands, on the north side of the Platte River, in central Nebraska.

Originally settled by close family friends in the 1800s, this property has been a vital part of the Central Flyway for generations, providing a sanctuary for migrating waterfowl and a place where traditions are passed down.

As a family-owned business, we take pride in going the extra mile to ensure that every adventure surpasses the last, offering an experience that is as personal as it is extraordinary.

# THE LODGE

---

At River Lodge Outfitters, we believe that a world-class hunting experience should be equally matched with first class amenities. Located in the heart of the Central Flyway, our 14,000 sq. ft. lodge is purposefully designed to be as enjoyable as the hunt itself.

Surrounded by panoramic views of migrating waterfowl, the lodge serves as your personal retreat after a day in the field. Whether you're gathered around the fireplace recounting the day's highlights, catching the big game on our large-screen TVs, or relaxing in your suite, every detail is crafted to enhance your experience—indoors and out.

## THE RIVERS

At River Lodge Outfitters, our guests enjoy exclusive hunting access across various prime properties totaling 20,000 acres in Central Nebraska. Our hunting lands include warm water sloughs, flooded corn and the region's three major waterways—the Platte River, the Calamus River, and the Loup Rivers—each offering uniquely different terrain, scenery, and wildlife experiences.

### PLATTE

Renowned for its broad sandbars and shallow braided channels, the Platte River is a magnet for migratory waterfowl, providing world-class duck and goose hunting opportunities.

Its expansive open skies and vast wetlands create ideal conditions for hunters aiming for plentiful flights, especially during peak migration.

### LOUP

Characterized by clear-running waters and diverse terrain, the North, Middle, and South Loup Rivers deliver a distinctly varied hunting environment.

With rolling sandhills, timbered edges, and grassy floodplains, these rivers support robust populations of both upland birds and waterfowl. Hunters enjoy versatility here, as the Loup Rivers' mosaic of landscapes allows the flexibility to switch between hunting fields, sand bars, wooded riverbanks and marshy edges.

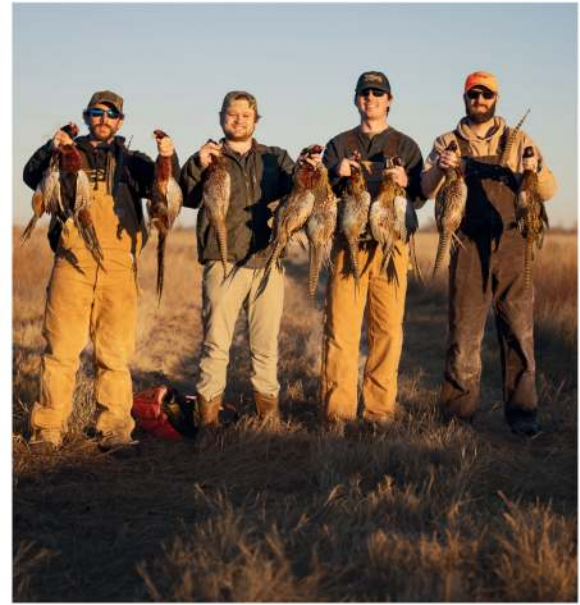

### CALAMUS

Offering a more intimate hunting environment, the Calamus River winds gently through wooded bottoms, grassy meadows, and steep riverbanks, creating prime habitats for waterfowl.

The secluded nature of the Calamus provides hunters with a serene and private hunting experience, perfectly suited for those who prefer skinny water and close shooting.
